

4 CARD POKER RULES

Introduction

Four Card Poker uses a standard 52-card deck. There are three ways to play. The game allows the player to wager against the dealer, to wager only on the value of his own hand against a payable, or to wager both

against the dealer and on the value of his own hand.

Ranking of Hands

Hands are ranked from highest to lowest as follows.

FOUR OF A KIND
STRAIGHT FLUSH
THREE OF A KIND
FLUSH
STRAIGHT
TWO PAIR
PAIR
HIGH CARD

Note: If a hand does not contain a pair or better, the hand that contains the highest ranking card(s) wins.

Ace is high

except in 4-3-2-Ace sequence.

Three Ways To Play

1. Playing Against the Dealer - ANTE WAGER

The object when playing against the dealer is to beat the dealer's four-card poker hand with your own four card

poker hand. *The dealer always qualifies.* Players place an ANTE wager. After looking at their hand, players may fold or, if they believe their hand is high enough to beat the dealer's hand, they will make the PLAY wager. *This wager must be from one to three times the ANTE wager.*

Note: The player wins ties. Consider the entire four-card hand when declaring a tie.

Playing Against the Dealer

- **Player folds ANTE LOSES**
- **When player's hand beats OR TIES PLAY wins 1 to 1 dealer's hand ANTE wins 1 to 1**
- **When dealer's hand beats PLAY is a loss player's hand ANTE is a loss**
